

## Message from the **Chief Executive**

It's with the lofty aim of serving the youth of Pakistan by helping them to find educational and economic opportunities in Canada that Sun Enterprises has launched its education division, Sun Education Services.

Sun Enterprises has been in Canadian immigration consultancy services for more than 20 years. Thousands of Pakistani men and women have availed its services for migrating to Canada in professional and investor categories. Its track record is without any blemish.

With this rich experience of immigration consultancy, we feel that the students in Pakistan need to be informed and assisted for familiarizing themselves with the immense economic opportunity which Canada offers them to study & earn, get a professional qualification and subsequently obtain permanent residence status.

Canadian economy is a fast growing economy with ever growing job opportunities in several sectors. Canadian education system, especially through vocational colleges and technical institutions, is tailor-made for the needs of economy and it ensures that the qualifying students find job opportunities.

Sun Education Services has established contacts with several colleges and universities all over Canada. It has concluded agreements with many of them for directing the aspiring Pakistani students towards them by helping them to identify the right courses in order to gain quick access to the job market.

This opportunity of studying with a view to professional insertion and citizen status in Canada is a unique opportunity which should be availed by the youth of this country for a better future for themselves and their families.

Sun Education Services offers you a one-window service for the entire processing of getting admission and obtaining study visa in a cost effective way.

**Syed Iqbaluddin Ghazi**  
Chief Executive Officer
